MEMORANDUM

TRAFFIC ENGINEERING

TO: Tom

FROM: Walt

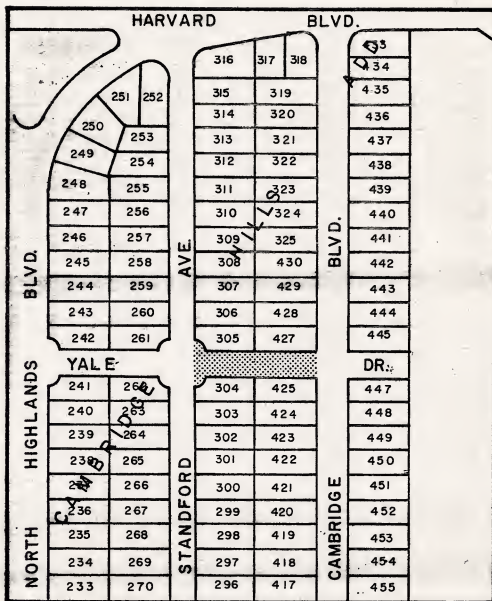

SUBJECT: Proposed vacation - Yale Street at Cambridge

I talked to Mr. and Mrs. Bruce Stephens at 2805 Cambridge who are the petitioners for the vacation of Yale, [] they have not actually made a formal or legal petition. They have only talked to Mrs. Rumsy in City Plan who suggested [] they consider filing through an attorney a request for vacation. The purpose that they are interested in is primarily to attach a two-car garage to the north side of their existing house. They do not have a garage or a carport as such. The driveway would be from Cambridge, and the garage would definitely be on what is now the reserved right-of-way for Yale. It would be impossible for them to construct a garage, as there is only approximately ten feet between what looks like the property line and their house. For this reason they feel that vacation is necessary. There are about eight to twelve pedestrians, mostly adults, that walk through the area where the roadway would be. Incidentally, it is only grass and weeds with a path that leads through from Stamford, and these people work in the Gateway Plaza Shopping area in the various shops and restaurants. There are some children, maybe a half dozen or less, who ride their bicycles through there; but it is almost impassible, [], particularly in incimate weather. They would have no objections to permitting pedestrians to walk through and continue to use this area as a cut-through, and I suggested to them that they contact the other three property owners involved. All four of them, of course, would be involved in the vacation of the street, and I felt that it might help their cause if they would agree possibly to never restrict pedestrians from using this if the street was vacated. It really serves no purpose traffic-wise, as the street between Stamford and North Highlands is not constructed and has bushes and trees and swampy areas. However, west of

street, simply chip and seal. There would be a major problem involved if the street would be constructed in that Stafford is considerably lower than Cambridge, maybe as much as eight-ten feet. So this would be a serious problem, particularly drainage-wise. Mr. and Mrs. Stephens expressed their concern that if the street would be cut through, this would cause an awful lot of water to fall then towards the west, unless proper drainage was installed, which seems to me at this time to be a great expense, the two property owners on Stafford could have some problems. I left it that way, and they were quite concerned, hopeful that something could be done. I suggested that possibly they would want to consult an attorney to assist them. My recommendation at this time would be that it really serves no purpose as far as traffic is concerned, and I could not see any objection of vacating the street with some type of covenant from the four property owners, stating that they would not block off or fence off to prohibit pedestrians from cutting through to the shopping center.

In closing, three or four years ago there was a lot of thought about cutting Tyler Avenue through to the Harris Road intersection, or at least to Goshen, and I think there is certainly a definite need for this. If we could get the industrial traffic out of that residential area, specifically the PC people, it certainly would be a tremendous help.
